WINDOWS TO THE SOUL

Eyebrow Henna

Henna brows are a form of eyebrow tinting that is used to stain the skin beneath the brow hairs. The purpose of this is to cast a shadow or create an illusion of depth and fullness in the area, visually filling in any sparseness. It's a fantastic way to try this before committing to semi-permanent makeup-coloured hairs that last for up to 6 weeks, skin stain will last anywhere from 5-10 days.

GROUNDING GOALS

Pedicure Treatments

In order for us to reach new Spiritual heights we also need to be grounded in the present moment. Our feet carry us a long way, they seem to keep on going even when our soul is tired, so why not give them some special nurturing and attention. Following the Slow Beauty Movement of SPARITUAL® using the sustainable, vegan beauty brand based on the rituals of self-care. We believe slowing down to return home to yourself, is the path to enlightenment.

Mindful Pedicure 60 mins \$62

DEEPER SOLUTIONS

Treatment Solutions

Shine Bright like a diamond - Microdermabrasion -30mins \$71

Microdermabrasion is an advanced technique to exfoliate the skin. This treatment removes dead skin cells and increases cellular turnover leaving the skin looking more radiant and youthful. Microdermabrasion on the face and body improves the overall look, feel, texture and tone of the skin and helps products penetrate more easily. Excellent for improving the appearance of sun damage, fine lines, acne scarring, age spots, hyperpigmentation, oily skin and for promoting new skin and collagen growth. Can be added to any holistic facial for an extra treat

Deep Sustenance - Vitamin Infusion 30 mins \$71

Ultra Sonophoresis utilises soundwaves that have been shown to increase transdermal penetration of active ingredients up to 1,000 times. Our signature facial treatments integrate a vitamin infusion to boost penetration of potent actives deeper into the skin, providing the skin with nutrients needed for cellular repair, and helps with synthesis of collagen for anti-ageing benefits.

Dermaplaning 45 mins \$71

Dermaplaning is a great form of exfoliation as it removes the vellus hair (a.k.a. soft peach fuzz) as well as the very top layers of dead skin cells, which can leave your skin brighter and smoother. The treatment may soften fine lines and wrinkles and ease hyperpigmentation, or uneven skin tone. It's also used to treat deep acne scars. Can be added to any holistic facial for an extra treat.

Peels 30 mins \$89

This Acid Peel utilises AHAs to quickly decongest, clarify and help control oil production skin peels aim to rejuvenate skin through accelerated exfoliation which ensure optimal skin results, while it quickly refresh and restore skin's youthful appearance. This peel can be used in conjunction with other active treatments.

Derma pen treatment 1hour depending on area from \$280

Micro needling is a very simple, painless and effective way to treat everything from wrinkles and pigmentation through to acne, scarring and stretch marks. The treatment works by gliding a small device over the skin, which delivers microscopic punctures (only a few millimetres deep) using very tiny needles. You won't really feel this, as they're moving incredibly fast. The treatment stimulates the natural healing process in the skin, resulting in fresh, new collagen and elastin, and a rejuvenated and more youthful complexion. To enhance this process, active solutions containing collagen, vitamins, antioxidants and other beneficial ingredients are applied and penetrate the deeper layers of the skin through these tiny channels to maximize your skin results. Derma pen is the original and most trusted micro needling brand. This device is safer than ever, with an anti-contamination mechanism and an increased amount of smaller, faster-moving needles than other devices, meaning less pain and more gain. Treatment is also suitable on all Fitzpatrick Skin Types and ethnicities. Other parts of the body can be treated at an added price. A consultation is required before this treatment.

LED light therapy add on 15-30 mins \$53

LED stands for Light Emitting Diodes these light waves are a proven, non-surgical treatment to erase the appearance of fine lines, age spots, sun damage, pigmentation and improve overall skin tone and texture can, Giving an extra boost of collagen an elastin with the benefit of replenished hydration. With prolonged use the LED light helps to alleviate pain by stimulating blood flow and aiding in muscle relaxation, the light penetrates deeper than topical skincare meaning more superior results.
